

Dunedin, New Zealand

# PHD STUDY at Otago

International PhD students can now study in New Zealand for the same low fees as domestic students.

The Software Agents Research Centre at the University of Otago's Information Science department seeks applications from prospective PhD students in the area of multi-agent systems. Our research interests include:

- Agent platforms and infrastructure
- Ontologies and interaction protocols
- Electronic institutions
- Agents and peer-to-peer computing

Further information can be found at the URL in the red bar below or by mailing [mpurvis@infoscience.otago.ac.nz](mailto:mpurvis@infoscience.otago.ac.nz). General information for intending international postgraduate students can be found at:
